

## Fraction Problems I

Solve using color tiles, other objects, or a picture.

1. Carla spent  $\frac{2}{5}$  of her allowance on a CD and  $\frac{1}{3}$  of her allowance on a new book. What part of her allowance does she have left?
2. A large bag of flour is  $\frac{2}{3}$  full. The pastry chef used  $\frac{3}{4}$  of this flour to bake a cake. What part of a full bag did she use?
3. Rita has read 360 pages in her book. The book has 570 pages in it. Is she more or less than  $\frac{2}{3}$  of the way through her book?
