## Square Numbers

4. Multiply any two consecutive odd numbers together and what do you find?
A. Begin by completing the table.

| Consecutive odd numbers | Product <br> (Result by multiplying) |
| :---: | :---: |
| $3 \times 5$ |  |
| $5 \times 7$ |  |
| $7 \times 9$ |  |
|  |  |
|  |  |
|  |  |
|  |  |

B. Describe the pattern.
5. Multiply any two consecutive even numbers together and what do you find?
A. Begin by completing the table.

| Consecutive odd numbers | Product <br> (Result by multiplying) |
| :---: | :---: |
| $4 \times 6$ |  |
| $6 \times 8$ |  |
| $8 \times 10$ |  |
|  |  |
|  |  |
|  |  |
|  |  |

B. Describe the pattern.
