

**Bringing Mathematics Home - 2**

## Multiplication Activities

1. Try some of the activities from Session 2 with your children.

**With older children:**

Have your child multiply  $14 \times 6$ .

**With younger children:**

Have your child multiply  $8 \times 7$ .

- a. What was easy for your child?
- b. Was your child able to explain his/her method of multiplying?

2. Have fun with your children this week making up imaginative stories that involve multiplication situations. Be ready to share some of your favorites.
